

We're upgrading our gas network, Sandling Road, Sandling, Hythe

We are writing to let you know about our project to upgrade our gas network in Sandling Road. This work will upgrade our old metal gas mains and services with new plastic pipe. This essential work will ensure your community continues to receive a safe and reliable gas supply.

In consultation with Kent Council our contractor, I&G Contracting, who will be completing this project on our behalf, will start work in Sandling Road in the week beginning 24th July for approximately 6 weeks.

Due to the position of the pipes in the road, and to ensure the safety of everyone around our worksite we will need to close Sandling Road around our worksite. We will be working from Sandling Railway Station to the junction with Freshfield Lane.

While the road is closed, there will be signed diversion routes in place and access will be kept for residents and businesses.

We understand that people can get frustrated by roadworks, and therefore we only use traffic management that we feel is efficient enough to complete these works safely for ourselves and the public.

We're writing to residents and other local stakeholders to make them aware of our project and explain the details of our work. Please feel free to also share this information with anyone you think may be affected by our project.
